About residential complex

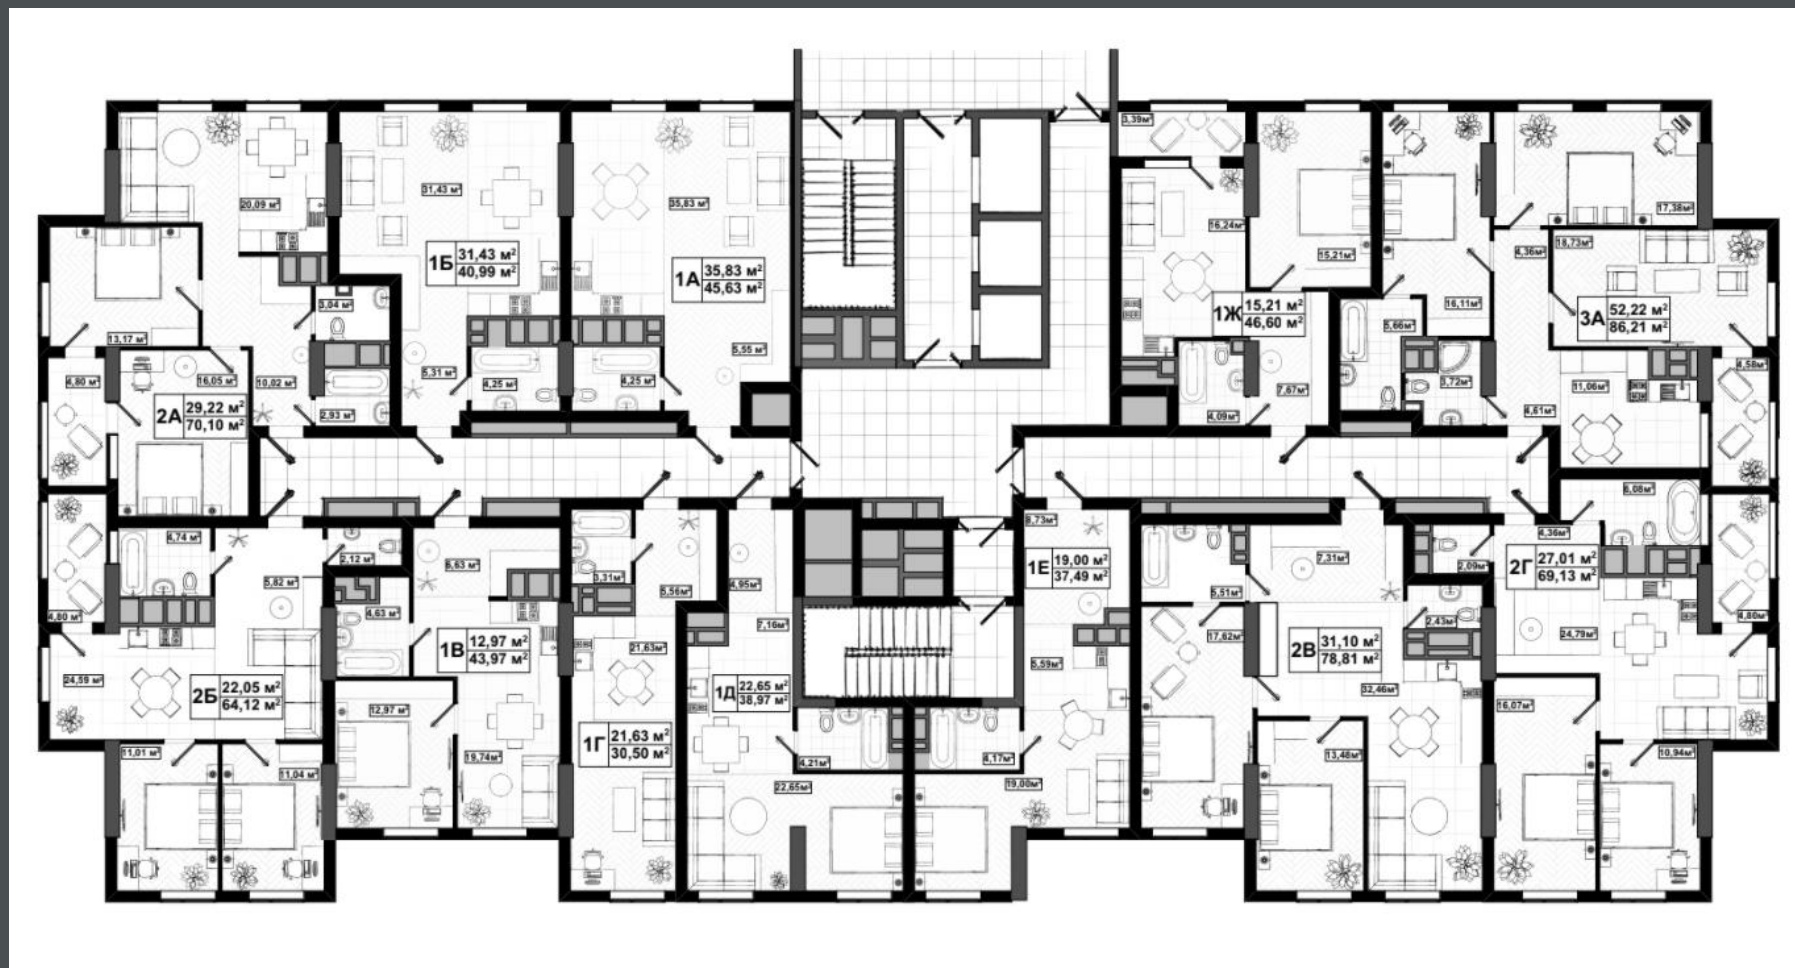

UNO City House is a 25-story building that harmonizes all spheres of modern life: a residential complex with underground parking and a roof terrace, as well as commercial and office infrastructure facilities. It means that you can enjoy a cup of excellent coffee, meet friends, organize the working process or rest staying at home.

The internal infrastructure of the complex will be placed on the first two floors of the building and will be made up of a gallery of stores, cafes, a beauty salon, a banking facility, a pharmacy, a supermarket, etc.

Residential premises will be placed from the third to the twenty-fifth floor. The 24th and 25th floors will be occupied by duplex apartments.
